ABOUT UNISCAN POWER SYSTEMS PVT LTD

In today's rapidly evolving energy landscape, the need for innovative, reliable, and efficient power systems has never been more critical. As we transition toward a future increasingly powered by renewable energy sources, the ability to monitor, manage, and optimise power usage is paramount.

Uniscan Power Systems, Telangana's leading company in the solar power sector, stands at the forefront of this revolution, offering cutting-edge solutions that meet the demands of the present and anticipate the needs of tomorrow. We deliver trusted and high-quality solar solutions tailored energy needs

Established in 1999, we specialised in design, engineering, supply, installation, commissioning, operations and maintenance of solar power systems catering for the needs of individual, industrial, and commercial customers by encouraging them to adopt energy solutions.

Uniscan Power Systems, headquartered in Hyderabad, has an installation base across the different Geographical locations. Over the years, we have commercialised unique solar power solutions customised for each application, including rooftop systems for different types of roofs (RCC floor, industrial metal roof), Solar Water heaters, **Floating Solar**, Solar Water pumps, and Solar Fencing for agriculture and domestic requirements.

We are working with Tata Power India's leading solar energy company, dedicated to advancing sustainable energy solutions and playing a crucial role in driving the adoption of renewable energy in India and contributing to the global effort to combat climate change. Our Team pride ourselves on being leading providers of top-quality solar & storage systems, so it's a great honour to be recognised by top company like Tata Power. We have a highly motivated and dynamic group of experienced employees with field experiences and continued learning.

Proficient in consulting, project planning, surveying, and system installation. Uniscan Power Systems has successfully installed 2500+ solar projects, with a installation capacity ranging from 2KW to 1 MW with a total operating capacity 50+ MW and has around 5000+ happy customers.

**"We have a loyal base of satisfied customers who highly recommend our services.
We are delighted to receive positive feedback from our customers."**

We are strategically planning to expand our business operations across global markets with the support of leading solar industry players, Tata and Reliance. Through this collaboration, we aim to leverage their extensive expertise, technological capabilities, and global reach to deliver high-quality, large-scale solar energy projects. This partnership reinforces our commitment to advancing sustainable energy solutions, achieving gigawatt-scale capacity, and contributing meaningfully to the global renewable energy landscape.

Our Services & Expertise :

We have proven expertise in delivering efficient and sustainable floating solar projects. Our solutions optimize water surfaces for clean energy generation, reduce land use, and enhance panel performance through innovative design and engineering.

Our Services & Expertise :

Solar Projects on Commercial Buildings

We specialize in designing and implementing solar power systems for commercial buildings. Our expertise ensures efficient energy generation, reduced operational costs, and sustainable power solutions tailored to each facility's needs. With a focus on quality, safety, and performance, we deliver turnkey solar installations that help businesses transition toward cleaner, greener energy.

Ground-Mounted Solar Expertise

We have strong expertise in developing and executing ground-mounted (soil-based) solar projects. Our team delivers efficient, high-performance solar installations optimized for maximum energy generation and long-term reliability. From site assessment and design to installation and maintenance, we provide complete solutions that ensure sustainability and cost-effectiveness.

Solar Projects on Apartments

We have proven expertise in designing and implementing solar power systems for residential apartment complexes. Our solutions help optimize rooftop space, reduce electricity costs, and promote sustainable living. From system design to installation and maintenance, we deliver reliable, high-efficiency solar solutions tailored to the needs of apartment communities.

VISIONARY BEHIND UNISCAN

Burra Ashok Kumar Goud

Burra Ashok Kumar Goud is a seasoned professional with over 25 years of experience in the solar industry. As the Managing Director of Uniscan Power Systems, a leading installer of solar power systems in Telangana, he has made significant strides in promoting solar energy solutions for residential, industrial, and commercial applications. Under his leadership, Uniscan has grown into a trusted name, providing energy-efficient and environment friendly solar installations.

His commitment to advancing sustainable energy practices is evident through his role as the President of the Telangana Solar Energy Association (TSEA). This association works to unite solar professionals in the region and push for policies that encourage the adoption of renewable energy. Mr. Goud's contributions go beyond corporate leadership. He is deeply involved in local solar initiatives, consistently advocating for scalable, affordable, and innovative solar solutions. His company, Uniscan, is recognized for its strong partnerships with top solar manufacturers like Tata Power Solar, and it continues to win industry awards for excellence in solar panel installations.

Through his efforts, he is helping to shape a greener future, ensuring that solar energy remains accessible and affordable for all.

GO GREEN! GO SOLAR!!

He got recognized and honoured with the award "Solar Man of Telangana" by Sri Prasad, General Manager, Telangana Renewable Development Corporation (TGREDCO) (TGREDCO is a Nodal Agency for implementing all New and Renewable Energy Programmes in the State of the Telangana) and Sri Chakrapani, CGM, TGSPDCL for the tremendous contributions in the field of Solar Energy.

AP EPDCL CMD Sri Pruthvi Raj garu, Honourable Member Golla Babu Rao garu and AP SEA President Hema kumar garu, presenting a memento recognising the special services in the field of solar energy @ RE NXT Solar Expo Vizag , Andhra Pradesh.Organised by AP SEA

I have been associated with them from their initial stage and i know well how Mr. Ashok Kumar (CMD) and his team developed their company into various sectors, recently they come up with Solar Energy, they installed a rooftop solar system for my house. Past nearly 2 decades of association, I can affirm for their technical expertise, **professionalism**, and dedication in service. The installation was ideal and their support was admirable. Strongly recommend them for reliable and efficient solar energy solutions!
